This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

MOST PRACTICAL SEWING MACHINE IN THE WORLD.

Sellers' & Co.'s New Patent Prize Medal (Stichwell)

SINGER'S IMPROVED PRINCIPLE (with Loose Wheel, &c.)

THIS important patented improvement renders it unnecessary to run the Machine when winding the Shuttle Bobbin, thus saving a great deal of wear and tear, so objectionable in machines manufactured on this principle, by the SINGER COMPANY.

These celebrated SEWING MACHINES have an Improved Shuttle, which holds more thread than any other of a similar construction; they are also provided with Wrought Iron Bevil Gear Wheels,, which are not liable to break.

New Patent Family Machine (plain table) £7 5 0
New Patent Medium Machine (plain table) 8 10 0

Sewing Machines may be purchased by instalments at 2s 6d per week.

Order of Oddfellows, the Star of Tambaroora Lodge G.U.O. of Oddfellows, the Sons of Temperance Division, Hill End; the Protestant Alliance Benefit Society, the Happy Home Division Daughters of Temperance, and the Western Star Lodge Grand United Order of Oddfellows, Chambers' Creek.

To the Editor of the "Western Independent," Bathurst.

SIR,—I desire through your paper to thank Mr. J. Knights for having publicly made known the curability of Asthma under the Homœopathic Medical Science, as practised by Dr. Fawcett, of Bathurst, as to him I applied as a last resource with the most singular and successful results. Having during the last seven or eight years suffered from a most distressing cough, which gradually got worse until I could scarce speak, and had to be bolstered up in my bed, the expectoration was very great and offensive. About five years back a duly qualified doctor pronounced my case as hopeless, as my right lung was gone and he could do no more for me, and that I could not possibly live the winter through. Previous to this I applied to another duly qualified doctor, who pronounced my left lung gone and the right fast going. Since then I have had the advice and medicine of many other doctors with no better results, and left to drag out a most miserable and expensive existence until I saw Mr. Knights' statement. Then I sought the advice and help of Dr. Fawcett with the most happy results, and in a few months, by taking very pleasant medicine, I can breathe with freedom, my cough is gone, I enjoy my food, and my lungs, which were represented to be gone, are now performing their functions as well as ever. Thanks be to GOD and Dr. Fawcett, I once more enjoy life in health and strength, and any one similarly afflicted, can now see me in my shop, corner of Durham and Stewart streets.

MARY HUGHES

I hereby certify that my wife's statement is correct in every particular.

WILLIAM HUGHES.

October, 1877.

To the Married Ladies of Bathurst and the Western District.

In my humble capacity as midwife and nurse of many years' experience, I beg to submit the following extraordinary fact in connection with a case of midwifery. My daughter, Mrs. T. McDonald, of Lambert-street, having on each of her three previous occasions endured the greatest misery conceivable, averaging 24 hours each, and followed by difficult and expensive convalescence, was at a loss to know whom to employ in her late confinement. On enquiry of others whom Dr. Fawcett attended, she learned that his skill and success in all such cases were unequalled, consequently she employed him with the following singular, successful results: At first I was agreeably surprised on being informed that all anticipated troubles would vanish throughout her case, and that she would not have, as before, two or three months agonizing pain prior to the event. Friends and neighbours were greatly astonished at Dr. Fawcett's statement proving correct, as by the aid of his tasteless medicines the lying-in-chamber is well nigh freed from one of its greatest terrors in the different stages of parturition. A speedy and painless labour of a few moments duration, and a rapid convalescence, were the result of Dr. Fawcett's treatment and attention.

MRS. W. BOOTH,

July, 1877. Lambert-street, Bathurst.

[CERTIFICATE.]

We hereby certify that the above statement is in every respect correct, and do advise all who value their lives in the time of need to call in DR. FAWCETT. We should be glad to answer any enquiries on the above subject.

THE BARTON EXPERIMENT.

BY THE AUTHOR OF "HELEN'S BABIES."

MOORE'S AUSTRALIAN EDITION.

What the Critics say.

"This is twice the book that 'Helen's Babies' is, and deserves to have twice its sale. The characters are perfectly portrayed, and the whole book is full of a quiet humour delightful to the reader. It is one of the most original and entertaining books of the season. The characters are drawn with singular clearness and power, and page after page will be read with increasing absorption of interest. A more rarely amusing book has seldom come to us, even across the Atlantic."

THE JERICHO ROAD:

A Story of Western Life.

BY THE AUTHOR OF "HELEN'S BABIES."

MOORE'S AUSTRALIAN EDITION.

"From an unknown author comes this remarkably fresh, strong, and racy book. When we say, that having once begun it, we found ourselves constrained to read it straight through at a sitting, we give it, according to the novel-reader's standard, the highest praise; yet the book has much higher qualities than those of a fascinating novel. . . . It touches the springs of compassion and sympathy; it moves us to a quicker sensibility towards the struggles and sorrows of our own neighbours, even the plainest and most unattractive of them. The true spirit of the Gospel is in the story."—*Christian Union.*

HELEN'S BABIES;

With some Account of their Ways:

INNOCENT, CRAFTY, ANGELIC, IMPISH, WITCHING AND REPULSIVE.

By THEIR LATEST VICTIM.

MOORE'S AUSTRALIAN EDITION.

YOUR true lover is found! Your true history at last is written! We have had "Water Babies," fascinating, but impossible; and "Dream Children," shadowy and unreal; and saintly babies, good with an uncanny and unhealthy goodness; but "Helen's Babies" are like none of these. No indeed; they are made of flesh and blood; good, sound, hearty flesh, and honest, red, life-blood; mischievous, affectionate, distracting, unendurable, enchanting, naughty, adorable darlings, whom one laughs and cries over, and cannot bear to leave. They are not "children in a book." We have all known Budge and Toddie, and heard their queer, half-inspired sayings, and recognised the "heaven that lies about them in their infancy," and been plagued to death by their diabolic tricks, and driven mad by their torturing inventions, and tempted to fall down and worship them when the angel shines out in them, and to sigh when we think how much nearer heaven their little, pure, white souls are than ours. That is to say, all of us who love children *really*. If there be any miserable man, or miserabler woman, who does not, let them avoid "Helen's Babies;" for it is a true and faithful chronicle of their doings and sayings, their rare attractions and their frequent crimes, by the hand of one who knows and loves them well.

THIS IS THE REAL CHILD-EPIC.

The man who thus "sings the arms and"—*legs* of Budge and Toddie has done for them what Virgil did for Æneas, or Homer for Ulysses. So, all ye fathers and mothers, and uncles and aunts, and grandfathers and grandmothers, wherever and whoever ye be, go to your Bookseller, get "Helen's Babies," and be happy.

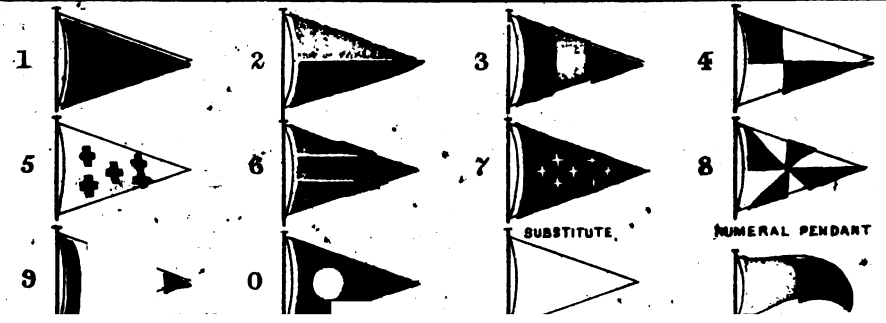
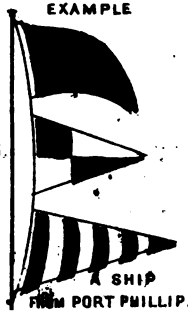
NUMERICAL FLAGS.



EXAMPLE



A SHIP
FROM PORT PHILLIP.

Digitized by Google

Explanation of General Signals.

When a vessel is first sighted, her descriptive flag is hoisted, and the direction from which she is approaching is indicated by hoisting a ball at the north or the south yard-arm, as the case may be.

The place from which any vessel arrives is signalled as soon as it can be ascertained, and before she enters the port; the entrance of the vessel into port is denoted by hauling down the ball at the yard-arm; and her anchoring by lowering the whole of the flags.

A ball hoisted at the mast-head indicates that the vessel last signalled is passing the port.

An immigrant ship is denoted by the numeral pendant being hoisted over the numerical flags. When troops are on board, the numeral pendant is hoisted under these flags. When a vessel returns to port, the white substitute is hoisted under the descriptive flag. When the Governor arrives, the Union Jack is hoisted at the semaphore mast-head.

Foreign National flags on the semaphore mast-head denote the country of the ship signalled.

Mail Steamers.

When a ball is placed between the descriptive flag and the numerical flags, it denotes that the vessel signalled is a Mail Steamer.

The arrival of the San Francisco, P. & O., and other Companies' steamers is indicated by the respective Companies' flags being hoisted on the semaphore yard-arm.

When the P. & O. Mail Steamer arrives at Adelaide, the Company's flag, with a ball over it, is hoisted at the semaphore mast-head, and kept flying one hour; when she arrives at Melbourne, the same flag with a ball under it is kept flying one hour. Her approach to Sydney is indicated by hoisting the Company's flag over the numerical flags denoting the station from which she is observed.

On the arrival of any of the Australasian Steam Navigation Company's steamers, a number is hoisted in addition to the house flag to designate the particular vessel arriving. The names of the Company's vessels with their numbers are as follows:—

1 Alexandra	12 Collaroy	23 Queensland
2 Balclutha	13 Coonanbara	24 Rangatira
30 Bee	14 Wentworth	25 Ripple
4 Black Swan	15 Bunyip	26 Tinonee

ECLIPSES—1878.

In the year 1878 there will be two Eclipses of the Sun, and two of the Moon.

First.—An Annular Eclipse of the Sun on the afternoon of February 2nd, visible as a partial one over the whole of Australia, with the exception of the north-eastern coast. The central line passes near the south pole and through Tasmania. At Sydney the eclipse begins at 6h 31m. 29s. p.m., and the sun will set eclipsed, with rather more than half his diameter covered by the moon. The position of the point of first contact on the sun's limb will be 59 degrees west of the south point, or 115 degrees from the vertex, towards the left. In the western parts of the colony more of the eclipse will be visible than in Sydney.

Second.—A Partial Eclipse of the Moon on the evening of February 17th, visible throughout New South Wales. At Sydney the phases will take place as follows:—First contact with the penumbra, 6h. 46m. 4s. p.m.; first contact with the shadow, 7h. 47m. 8s. p.m.; middle of the eclipse, 9h. 15m. 6s. p.m.; last contact with the shadow, 10h. 43m. 4s p.m.: last contact with the penumbra, 11h. 44m. 8s. p.m.

The first contact with the shadow takes place at a point 98 degrees to the east of the moon's southern point. At the middle of the eclipse rather more than eight-tenths of the moon's diameter will be covered by the earth's shadow.

Third.—A Total Eclipse of the Sun on the morning of July 30th, invisible in Australia. The central line passes through north-eastern Asia and North America.

Fourth.—A Partial Eclipse of the Moon on the morning of August 13th, invisible in New South Wales.

A Transit of the Planet Mercury across the face of the sun will take place on the morning of May 7th, the end of which will be visible in New South Wales. The sun will rise with the planet on his disc, and at Sydney the last external contact of the two bodies will take place at 8h. 53m. 52s. a.m.

TIDE TABLE FOR AUSTRALIA.

In the following table the Moon's Age is reckoned to noon each day.

The corrections are for the hours.

The corrections must be adjusted at New and Full Moon.

There are two days in every month, during the twenty-four hours of which there can be only one tide, morning or afternoon, as the case may be.

A correction of more than twelve hours produces an afternoon tide till it becomes otherwise by exceeding twenty-four hours, or a re-adjustment.

GENERAL EQUATION TABLE.

Equation of Time is the difference between the indications of a sun dial and those of a correct and uniform time-piece. It arises from the fact that the apparent motion of the sun is not uniform; and also from the obliquity of the ecliptic. There are only four times in the year when the clock and the sun—mean time and apparent solar time—coincide; and these are April 15, 16; June 15, 16; September 1; December 24, 25. At all other times the sun comes to the meridian sooner or later than 12 o'clock by the time-piece. A closely approximating table of equations for the longitude of Sydney, is given in the monthly columns of the Calendar, [headed "Sun on Meridian,"] which see. But as it is useful to have some general scale applicable to all ordinary purposes everywhere, the following table is here inserted from an Encyclopædia. The mark × indicates that the clock is earlier than the sun; the mark — that it is later.

BANK HOLIDAYS.

By the "Bank Holidays Act, 1875," the undermentioned days are appointed to be observed as Bank Holidays in New South Wales:—

The 1st day of January; the 26th day of January; Good Friday; the day after Good Friday; Easter Monday; the Anniversary of the Birthday of her Majesty or her Successor; the 1st day of August; the Anniversary of the Birthday of Prince of Wales; Christmas Day; the 26th day of December.

In the event of any of these days falling upon a Sunday, the Monday following shall be a Bank holiday; and whenever the twenty-sixth day of December falls upon a Monday, the day following also shall be a Bank holiday.

Bills due upon any of these holidays, or upon any other days appointed by the Governor's proclamation, in addition to, or in substitution for, any of them, are not payable until the next business day.

GARDENERS' CALENDAR.

Calendar of Culture for the Middle District.

JANUARY.—KITCHEN GARDEN.—Plant cabbage, celery, potatoe, artichoke, and other tubers. Sow turnips, spinach, and French beans. For late crops: peas, lettuce, radish, pumpkins, melons, cucumbers. FLOWER GARDEN.—Weed and water well. Dahlias can be planted. Dig up and store bulbs as soon as the leaves are withered. Stake, prune, and tie up early planted dahlias; thin out superfluous flower buds. Protect from the mid-day sun. Water when necessary. ORCHARD.—Ground should be loosened at surface, but avoid deep digging. Thin superfluous fruit. VINEYARD.—Continue summer pruning; remove useless shoots; destroy weeds. Tie up the bearing branches. Protect fruit from birds by netting, bagging, or such other means as may suggest itself. FIELD.—Break up land for wheat. Sow barley for green crop on rich land; Swedish turnip, mangel wurzel, sorghum. Dig the early crop of potatoes if ripe, for if left in the ground they will rot.

FEBRUARY.—KITCHEN GARDEN.—Plant and sow nearly the same as last month; transplant salads, onions, carrots. Asparagus beds to be kept clean. Cucumber beds to be watered and shaded if necessary. ORCHARD.—Weed and loosen soil. Thin out useless shoots from vines, in order to admit sun and air to the fruit. FLOWER GARDEN.—Plant late dahlias, and annual flowering plants to be carefully watched. FIELD.—Sow Cape barley, turnips (all sorts), beet, mangolds, &c. Ploughing should be proceeded with to prepare land for wheat and hay crops.

MARCH.—KITCHEN GARDEN.—Plant and sow according to season nearly the same as last month, with the exception of pumpkins, melons, and cucumbers for winter crops. Prepare ground for winter crops. ORCHARD.—Weed and loosen soil. Prune and thin orange trees. FLOWER GARDEN.—Plant late annuals and dahlias for succession; dahlias to be staked and attended to. Commence planting bulbs. Dig up and store lilies of all kinds. FIELD.—Plant potatoes early this month. Sow wheat, mangel wurzel; if the weather is hot and dry, end of the month preferred. Sow barley for green crops, turnips, &c. Small kinds of maize may be still sown. Collect seeds of sorghum and other millets. Cut and house tobacco.

APRIL.—KITCHEN GARDEN.—For early crops sow peas, cabbage, lettuce, radish, carrots, turnips, parsnips, parsley, celery, mustard—herbs of all sorts. Sow for succession cauliflower and broccoli. Collect and store pumpkins. Dress potatoe beds. Sow Windsor beans. Plant cabbage, cauliflower, rhubarb, and asparagus—strawberry beds should be attended to and new beds planted. ORCHARD.—Weed and loosen soil. Avoid deep digging until next month. Commence planting orange, loquat, and other evergreens. FLOWER GARDEN.—Remove rubbish. Season for planting bulbous roots which require dry ground. Tie up and stake chrysanthemums; prune geraniums; re-pot and start fuchsias; camelias should be placed in a cool dry situation for flowering. Commence planting herbaceous plants of all kinds. FIELD.—Sow wheat, barley, oats, peas, broad beans, clover, lucerne, all kinds of grass seed for pasture, fodder, or hay. Harvest sorghum and other millets; preserve the stalks.

MAY.—KITCHEN GARDEN.—Planting and sowing as in last month. Transplant cabbages, cauliflowers, &c. Carrots and potatoes to be stored. Sow Windsor beans. ORCHARD.—Prune orange trees; plant orange, loquat, and other evergreen trees, as well as deciduous trees of all kinds. Commence manuring; stone

fruit trees to be well manured; for these trees, bone dust and guano have been found profitable. FLOWER GARDEN.—Tie up and stake chrysanthemums; root prune geraniums. Place camelias in a cool situation for flowering. Plant hyacinths, &c., as in April. Lilies and such like bulbs to be taken up and kept dry. Plant flowering shrubs and herbaceous plants of all kinds. Sow hardy annuals of all sorts. FIELD.—Sow wheat, barley, &c.

JUNE.—KITCHEN GARDEN.—Transplant as in last month, with strawberries, artichokes, onions, &c. Sow peas, broad beans, salad, cabbage, broccoli, &c Earth up peas and beans, if forward. Trench and manure. ORCHARD.—Transplant all kinds of evergreen and deciduous fruit trees. This is the best month for pruning all deciduous trees; deep digging, trenching and manuring should also be completed this month. FLOWER GARDEN.—Tie up and stake chrysanthemums. Root prune geraniums. Re-pot and start fuchsias. Plant hyacinths as in April and May. FIELD.—Sow barley, wheat, oats, beans, peas, lucerne, clover, &c., &c. —this often proves the best month for sowing these crops as the autumn is sometimes very dry.

JULY.—KITCHEN GARDEN.—Sow peas, cabbage, lettuce, radish, carrots, turnips, parsnips, celery, parsley, mustard, cress, and herbs of all sorts. Plant cabbage and onions. Sow for succession cauliflower and broccoli. ORCHARD.—Gather late apples and pears. Transplant all kinds of evergreen and deciduous fruit trees, strawberries, &c.,—finish deep digging. FLOWER GARDEN.—Plant and remove shrubs, roses, &c. Re-pot fuchsias for early flowering. Plant hyacinths, anemones, ranunculus, tulips, and all Cape bulbs. Plant flowering shrubs, and herbaceous plants. Dig up and store dahlia roots. FIELD.—Plough for tobacco and maize. Wheat, barley, and oats may be sown. Good crops may be looked for if the month be cold and wet, followed by a dry spring. April and May are the proper months for sowing the above; the later you sow the more seed you require. Field peas and beans may still be sown. Sow clover, lucerne, and all kinds of grass seeds for pastures should the weather admit of it. Winter ploughing should never be neglected.

AUGUST.—KITCHEN GARDEN.—Sow peas and beans for late crop; also cabbage, lettuce, onions, cauliflowers, leeks, eschalots, rhubarb, and herbs. Clear and loosen soil. Sow as last month with addition of spring vegetables in general. At end of this month sow pumpkins, melons, cucumbers, vegetable marrow, and plant potatoes. ORCHARD.—Plant every description of hardy fruit trees, as apple, pear, quince, almond, peach, cherry, apricot, orange, &c. Finish pruning and manuring all kinds of deciduous fruit trees, if not previously done. FLOWER GARDEN.—Transplant lilies, anemones, flowering shrubs, roses, magnolias, camellias, carnations, primroses, &c. FIELD.—Prepare land for maize and summer growing crops. Sow wheat, barley and oats, in late districts. Sow tobacco in seed beds, and protect from frost. Sow sorghum saccharatum in seed beds for planting out; transplant when six inches high, in rows three feet apart; let the plants be a foot from each other. Potatoes as before.

SEPTEMBER.—KITCHEN GARDEN.—Sow peas, French beans, cabbage, lettuce, carrots, parsnips, turnips, broccoli, radish, spinach, tomatoes, capsicums &c. Plant potatoes, cabbage, lettuce, artichokes, celery, parsley, and herbs. Sow melons, cucumbers, pumpkins, &c. Keep down weeds, pulverise the soil, and irrigate. ORCHARD.—Orange, lemon, and almost all evergreen fruit trees may be transplanted; do not keep them longer out of the ground than necessary. In warm situations, cherries, early plums, loquats, and strawberries ripen about the end of this month. FLOWER GARDEN.—Continue planting lilies, crinums, and other bulbs. Flowering shrubs may still be transplanted with care. Hyacinths, tulips, anemones, and ranunculuses bloom this month; protect them from too much heat

at mid-day, as also in boisterous weather. Plant dahlias in good rich soil. Sow balsams and tender annuals in a warm sheltered situation. Weed and water. VINEYARD.—Destroy caterpillars, &c., and keep the land free from weeds. FIELD.—Sow maize, millet, and pumpkins; plant potatoes and tobacco. Sorghum can be sown either in beds or the field; the seed is the better for being steeped in water a few hours previous to sowing. Sow cotton seeds, three in a hole; let the holes be four feet apart; when the plants are about six inches high, take out the two weakest, and leave only one strong one in each hole. Keep down weeds, and loosen surface of the soil. Irrigation must be attended to should rain be withheld.

OCTOBER.—KITCHEN GARDEN.—Sow peas, cabbage, lettuce, onion, radish, carrots, turnips, parsnips, pumpkins, melons, cucumbers, parsley, celery, mustard, cress, and herbs; Cape gooseberries, tomatoes, capsicums, &c. Plant cabbage, potatoes, artichokes, arrowroot, ginger, turmeric, yams, &c. Weed and water. ORCHARD.—Weed and keep surface soil loosened; thin out superfluous fruit from peach, nectarine, apricot, plum, cherry, and other summer fruits. Commence gathering cherries, gooseberries, currants, and early plums, as they ripen, and protect them from birds. Commence to prune and thin out orange trees. FLOWER GARDEN.—Weed and water well. Plant out annuals, &c. Plant dahlias; dig up and store in a dry place tulips, hyacinths, and other bulbs, so soon as the leaves are withered, to prevent rotting or unseasonable growth: this is the best month for sowing balsams and all kinds of tender annuals. VINEYARD.—Loosen surface soil, keep down weeds, replace stakes when required, and destroy caterpillars, and other insects. FIELD.—Sow maize, millet, pumpkins, water and other melons; plant potatoes. Sow tobacco in seed beds, and protect from frost with boughs, &c.; water if necessary. Sow sorghum saccharatum in seed beds, for after-planting—for directions, see August. Sow Swedish turnips, carrots, beet, mangel wurzel, &c. Top-dress pastures. Cotton must be kept free from weeds, surface soil loosened, and the superfluous shoots thinned out.

NOVEMBER.—KITCHEN GARDEN.—In every respect the same as last month. Weed and water well, should rain not fall. ORCHARD.—The directions detailed last month apply in every respect to this. FLOWER GARDEN.—Plant geraniums, verbenas, fuchsias, and budding plants generally. Continue storing tulips, hyacinths, and ranunculus as they ripen forward. Dahlias should be staked, and buds thinned. Continue planting shrubs, but from pots only. VINEYARD.—Loosen surface soil, keep down weeds, replace stakes, destroy insects. FIELD.—Continue all operations as during last month. The following is a good and cheap manure for top-dressing pastures:—Two cart-loads wood ashes, six of surfacing of forest or scrub, and 1½ cwt. of Peruvian guano per acre, well mixed together and spread over the face of the pasture.

DECEMBER.—KITCHEN GARDEN.—Sow for late crops, peas, cauliflowers and broccoli; also cabbage, radish, turnips, &c. Plant tomato, capsicum, and generally as last month; watering should be copious to be of any use. ORCHARD—Continue to thin out superfluous fruit; vines should be carefully tied, and all unnecessary and straggling shoots removed. Insects require to be looked after most particularly this month. Weeds must be kept down, and the surface of the soil loosened. FLOWER GARDEN.—Continue to plant all kinds of budding plants. Attend carefully to staking dahlias and removing superfluous buds. All kinds of shrubs may be planted out still but from pots only. Weeds require to be kept down. FIELD.—For late crops, maize, sorghum, millet; pumpkins and melons may still be sown, also, tobacco. The hay harvest should be completed this month. Cotton plants should be carefully attended to, and all superfluous shoots removed. Weeds kept down, and the scarifier kept constantly at work to keep surface of soil open.

Postal Information.

General Arrangements.

The City Letter Carriers deliver three times a day, and Suburban Carriers twice; the hours of closing and despatch are stated below, viz.:—

	Post closes at General Post Office.	*Letter Carriers leave General Post Office.*
City of Sydney ..	8·30 a.m., 12·30 and 3·30 p.m.	8.45 a.m., 1 and 4 p.m.
Suburbs	8·30 a.m. and 1·30 p.m.	8.45 a.m. and 2 p.m.

(Balmain, Camperdown, Glebe, Newtown, Paddington, Redfern, St. Leonards, St. Marks, and Woollahra.)

Country Districts:—	*Mails close at General Post Office.*
Western	Daily, *8·30 a.m. and 4 p.m.
Southern	„ *9 a.m. and 4 p.m.
Northern	„ by Grafton steamers at 8 p.m., and per Hunter River steamers at 9·30 p.m.

* See Table of Departures of Mails, page 81.

Book Packets and Samples intended for despatch to the Country Districts must be posted as follows, viz.:—

Western and Southern Districts ..	8 A.M.	4 P.M.
Northern		6 P.M.

Newspapers for West and South must be posted by 7·30 A.M. and 3 P.M., and for the North by 6 P.M.

Mails for despatch by Steamers are, as a general rule, closed half-an-hour previous to the advertised time of the vessel's departure; but in the event of steamers leaving at 9 A.M. the Mails close at 8.

Digitized by Google

Mails are made up for despatch by sailing vessels twice a day, viz.:—at noon and 6 p.m.

The Letter Delivery Office is open from 8.45 A.M. to 9 P.M. The Dead Letter Office is open from 10 A.M. to 4 P.M, Saturdays excepted, when it closes at 1 P.M. The Inquiry Office and Postage Stamps Sale Office are open from 9 A.M. to 5 P.M. The Registered Letter Office is open from 10 A.M. to 3·30 P.M., and from 9 a.m. on the day of the departure of the English Mail *via* San Francisco. Letters for registration intended to be forwarded by Mails to be despatched between the hours mentioned (the Monthly English Mails excepted), must be posted half-an-hour before the time appointed for the closing of such Mails. The Newspaper Delivery Office is open from 9 a.m. to 4 p.m.

The following arrangement will be observed on all public holidays, viz.:—

The General Post Office will be open from 8.45 a.m. to 10 a m.

The morning delivery only will be effected by Letter Carriers.

The Country mails usually despatched in the afternoon and evening, also the Coastwise, Intercolonial, and Foreign mails, will close at 9 a.m. unless otherwise specially intimated.

The Iron Pillar Receivers and Receivers at Suburban Post Offices will only be cleared at the first usual hour on such day.

Private letter-boxes will be provided for merchants and others, and their letters delivered at a separate window, upon payment of one guinea per annum, or ten shillings and sixpence per half-year, *each*. All payments to date from 1st January or 1st July.

All letters received in this Colony from *any* part beyond the seas (except the Australasian Colonies and South Sea Islands) that have not been regularly posted at the place of despatch, will be charged with the Colonial ship rates of postage, 6d. per half ounce.

No charge whatever is made on letters received in this Colony *from* places beyond the Colony, except in cases of insufficiently stamped or re-directed letters, provided they have been duly posted, and prepaid at place of despatch.

Should information be at any time required from a Country Postmaster, *in writing*, the public are recommended to enclose a Stamped Directed Envelope for reply, as the Country Postmasters cannot forward an answer unless it is prepaid in postage stamps.

The public are requested to note that addresses and changes of addresses will be recorded and attended to in this Office for 12 months only—that period being considered to afford ample time to correspondents to address their letters properly.

ENGLISH MAIL STEAMER SIGNALS.

The following signals will be hoisted on the "Flagstaff," at the General Post Office, to denote the arrival of "Mail Steamers."

VI. PREPAYMENT OF POSTAGE.

The postage upon all letters, packets, and newspapers must be prepaid by affixing stamps thereon. But where any Postmaster shall not have stamps of the requisite value for sale, the postage may be paid in coin, and shall be acknowledged by such Postmaster on the face or cover of the letter, packet, or newspaper.

Town and country letters or packets bearing one postage stamp will be regularly transmitted; but double the amount of postage omitted to be paid, will be charged on delivery.

Letters and packets addressed to places beyond the Colony, posted wholly unpaid (except to places, *vide* Table A. of Post Office Guide), or not fully prepaid, will be returned to the senders,* except letters and packets addressed to the United Kingdom, *Victoria, Queensland, New Zealand, South Australia, Tasmania, Fiji Islands, United States, Honolulu, Hong Kong, and China*, which will be forwarded if a single rate be prepaid; the deficient postage, together with a fine equal to a single rate being charged on delivery.

VII. EXEMPTION FROM POSTAGE.

Members of the Executive and Legislative Councils may receive, by the post Petitions and Addresses to Her Majesty and to His Excellency the Governor, and Petitions addressed to either the Executive or Legislative Council, not exceeding thirty-two ounces in weight, exempt from postage, provided such Petitions and Addresses be sent without covers, or in covers open at both ends.

VIII. RE-DIRECTED LETTERS, &c.

Letters and packets (but not newspapers), on being re-directed, are chargeable with a new and distinct rate of postage.

Letters and packets may be re-directed to the United Kingdom, New Zealand, Victoria, South Australia, Western Australia, Queensland, Fiji Islands, United States, Honolulu, Hong Kong, and China, without prepayment of additional postage, which will, however, except in the cases of South Australia and Tasmania be charged on delivery.

IX. REGISTRATION OF LETTERS.

Any person can have a letter registered by affixing on it, by means of the proper stamps, the amount of the registration fee, in addition to the proper postage, and presenting it a Post Office during office hours, when a receipt for the same will be given, and every precaution will be adopted to ensure its safe delivery by entering it on the Letter Bills, and obtaining a receipt for the same on delivery. As the Post Office, however, is not responsible for the loss of *any letter*, whether registered or otherwise, parties sending Bank notes or drafts are advised to take the numbers and particulars, and to cut such notes or drafts in halves, and to send them by different posts.

The registration fee to all places not mentioned in Table A. of Post Office Guide is 4d.

Should any letter, containing or appearing to contain coin or other valuables, not be registered by the Sender, this will be done by the Department, the Registration Fee (or in the case of letters to or from the United Kingdom a double Registration Fee) being charged on delivery.

* Letters, &c., detained for postage are, in cases where the senders' names are not ascertainable, entered on a list and exposed to view outside the General Post Office, and are there kept for 30 days (unless the deficient postage is previously paid). Notice of the detention and the amount of postage required is immediately forwarded to the parties to whom the letters are addressed.

Letters or packets containing either gold or silver money, jewels, or precious articles, or any other article whatever liable to Customs' duties, are not allowed to be sent by post, registered or otherwise, to any of the following places: Austro-Hungary, Belgium, British Guiana, Cape de Verds, Ceylon, Cuba, Curaçoa, Denmark, Egypt, Fernando Po, France, French Colonies, Germany, Greece, Hong Kong, Italy, Jamaica, Labuan, Luxemburg, Montenegro, the Netherlands, Norway, Porto Rico, Portugal (including the Azores and Madeira) Roumania, Russia, Servia, Spain, Straits Settlements, Surinam, Sweden, Switzerland, Trinidad, Turkey, and the United States, or British India.

X. LATE LETTERS.

Late Letters, intended for despatch from the General Post Office by the Western and Southern Mails, will be received until fifteen minutes after the hour fixed to close mails, on payment of a Late Fee of 3d. in addition to the Postage.

Late Letters, intended for despatch by the Intercolonial Mails, will be received for a quarter of an hour *after* the time fixed for the closing of the mails; but such letters must each bear an extra three-penny stamp as a Late Fee, or they will not be forwarded.

Letters placed on board steamers or sailing vessels for any of the Australasian Colonies after the mails have closed at the General Post Office, should bear the ordinary postage rate, with a Late Fee of 3d., and if not fully prepaid, the deficiency will be charged on delivery.

At Country Post Offices, Late Letters can be posted to within a quarter of an hour of the time of despatch of the mails, on payment of a Late Fee of 3d. In certain cases letters can also be forwarded if posted (with a Late Fee of 3d.) between the hours of 9·30 and 9.45 p.m. All Late Fees must be paid by stamps.

BOOK PACKET REGULATIONS.

1. A book packet may contain any number of separate books or other publications (including printed or lithographed letters, bank pass books, returns, cheques, deeds, affidavits, policies of assurance, depositions, powers of attorney), photographs (when not on glass or in cases containing glass or any like substance), drawings, prints, or maps, and any quantity of paper, or any other substance in ordinary use for writing or printing upon; and the books or other publications, prints maps, &c, may be either printed, written, engraved, lithographed, or plain, or any mixture of these. Further, all legitimate binding, mounting, or covering of a book, &c., or of a portion thereof, is allowed, whether such binding, &c., be loose or attached; as also rollers in the case of prints or maps, markers (whether of paper or otherwise) in the case of books, pens or pencils in the case of pocket books, &c., and, in short, whatever is necessary for the safe transmission of such articles, or usually appertains thereto; but the binding, rollers, &c., must not be sent as a separate packet.

Circulars,—i.e., letters which are intended for transmission in identical terms to several persons, and the whole or the greater part of which is printed, engraved, or lithographed,—may also be sent by book post.

2. A book packet may not contain any letter, or communication of the nature of a letter* (whether separate or otherwise), unless it be a circular-letter or be wholly printed; nor any enclosure sealed or in any way closed against inspection; nor any other enclosure not allowed by Rule 1. If this Rule be infringed, the entire package is charged as a letter.†

3. A book packet may be posted either without a cover (in which case it must not be fastened, whether by means of gum, wafer, sealing wax, postage stamp, or otherwise), or in a cover entirely open at both ends, so as to admit of the contents being easily withdrawn for examination‡; otherwise it is treated as a letter. For the greater security of the contents, however, it may be tied at the ends with string, Postmasters being authorised to cut the string in such cases, although if they do so they must again tie up the packet.

4. No book packet may be above sixteen ozs. in weight, nor above two feet in length, one foot in width, or one foot in depth, unless it be sent to or from one of the Government Offices. The limit of weight is not the same to all countries. For particulars see Table A. of Postal Guide.

5. When, owing to a great or unusual influx of letters, books, &c., the transmission or delivery of the letters would be delayed if the whole mail were dealt with without distinction, book packets may be kept back till the next despatch or delivery.

6. Any packet posted in fraud or violation of the Post Office Statute or Regulations, or of any Act of the Customs, or epistolary communication, or having less than one rate prepaid as a packet not exceeding two ounces in weight, or which shall have no postage, or less than one rate of postage in accordance with the rate

* Entries merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter.

† It is the duty of Postmasters, whenever they have ground for suspecting an infringement of any of the above conditions, and occasionally, even when there is no ground for suspicion, to open and examine book packets posted at, or passing through their office.

‡ In order to secure the return of book packets which cannot be delivered, the names and addresses of the senders should be printed or written *outside*; thus, "From ——— to ———."

Digitized by Google

chargeable thereon, or shall contain or have on the outside thereof, any profane, obscene, or libellous address, signature, picture, or thing, must be sent to the Dead Letter Office forthwith.

7. Packets containing returns of births, baptisms, marriages, and deaths, may be transmitted unstamped, the postage being paid upon delivery, if marked as containing such returns only, and signed by the Clergyman or the District Registrar transmitting them.

PATTERN AND SAMPLE POST REGULATIONS.

1. There is a Pattern and Sample Post to such colonies and foreign countries as are marked in Table A. of Post Office Guide, with the letter "P"; but it is restricted to *bona fide trade patterns or samples of merchandise.** Goods sent, for sale, or in execution of an order (however small the quantity may be), or any articles sent by one private individual to another which are not actually patterns or samples, are not admissible.

2. Patterns or samples, when practicable, must be sent in covers open at the ends and in such a manner as to be easy of examination.† But samples of seeds, drugs, and such like articles, which cannot be sent in covers of this kind (but such articles only), may be enclosed in boxes, or in bags of linen or other material fastened in such a manner that they may be readily opened; or, in the case of samples of seeds, &c., in bags entirely closed, provided such closed bags are transparent, so as to enable the Officers of the Post Office readily to satisfy themselves as to the nature of the contents.

3. There must be no writing or printing upon or in any packet except the address of the person for whom it is intended, the address of the sender, a trade mark or number, and the price of the articles.‡

4. Packets containing samples or trade patterns above sixteen ozs. in weight, or exceeding two feet in length, one foot in width, or one foot in depth (unless it be sent to or from one of the Government Offices), or reasonably suspected to contain articles likely to injure the other portions of the mail, or the person of any officer or servant of the Post Office, may be refused. The limit of weight is not the same to all countries. For particulars see Table A. of Post Office Guide.

5. Packets containing seeds, not sent as samples, may be forwarded as inland packets only: such packets must not, however, exceed eight ounces in weight, and must be packed in the manner described in Regulation 2.

* As considerable misunderstanding seems to prevail in reference to the articles that can be forwarded through the post as patterns or samples of merchandise, it is necessary to explain that the regulations are not intended to provide for the public a kind of parcel delivery throughout the Colony (an idea which some persons seem to have formed), but merely to enable business houses to have facilities for the transmission of samples, having, so far as these houses are concerned, no intrinsic value beyond their use as samples. For the purpose of a pattern, in most cases a *small piece* of an article is all that is required to be transmitted. The *complete* article having a value of its own, would not in such case come under the class of patterns or samples only. Packets open at the ends with sample rates of postage containing any *complete* article, as a child's dress, a pair of stockings, a clergyman's surplice, &c., will be charged on delivery with double the deficiency at the *letter rate* of postage.

† In order to secure the return of pattern packets which cannot be delivered, the names and addresses of the senders should be printed or written *outside;* thus, "From ——— of ———."

‡ Patterns or samples of merchandise for transmission by post within the Colony can be accompanied by a printed descriptive catalogue or printed advertisement from the senders, provided the ends of the packet are left open for inspection of contents, and they are otherwise posted in accordance with the Pattern and Post Sample Regulations.

Both the book packet and the pattern sample postage rates will be chargeable on this description of matter, viz.:—

Not exceeding 2 ozs. ..... 2d.
And 2d. extra for every additional 2 ozs. or fraction of ozs.

6. Any packet posted in fraud or violation of the Post Office Statute or Regulations, or of any Act of the Customs, or containing any letter or epistolary communication, or having less than one rate prepaid as a packet not exceeding two ounces in weight, or which shall have no postage, or less than one rate of postage, in accordance with the rate chargeable thereon, or shall contain or have on the outside thereof any profane, obscene, or libellous address, signature, picture, or thing, must be sent to the Dead Letter Office, forthwith.

INLAND CARD POST.

Post Cards, whether Official or Private, being each impressed with a penny stamp, may be transmitted between places in the Colony of New South Wales, under the following conditions and regulations:—

1. The front or stamped side of the card to be for the address only, in addition to the words "Post Card" There must be nothing else written, printed, or otherwise impressed on the front side of the card, nor must there be any writing or printing across the stamp. On the reverse side any communicatfon, whether of the nature of a letter or otherwise, may be written or printed. Nothing whatever may be attached; nor may the card be folded, cut, or in any other respect altered. Adhesive stamps will not be accepted in payment of postage. If any of these conditions be infringed, the card will be charged 2d. on delivery.

2. No card other than those issued by the Government, or a private card impressed with a penny stamp, under the special authority of the Postmaster General, will pass under a penny stamp, if it bear on it a written communication of the nature of a letter.

3. Should a Post Card be observed to bear upon it anything of an obscene, libellous, or otherwise obviously objectionable nature, it will not be delivered.

4. When owing to a great and unusual influx of letters, books, &c., the transmission or delivery of the letters would be delayed if the whole mail were dealt with without distinction, Post Cards may be kept back until the next dispatch or delivery.

Official Cards will be sold in packets of a dozen for 1s. per packet, and will not be sold singly at Post Offices.

The impressed stamp of a postal card cannot be used as a postage stamp.

For information as to the conditions under which printed cards may be impressed application can be made to the Secretary to the Post Office.

NEWSPAPERS.

1. Newspapers printed and posted within the Colony are transmitted free of charge, excepting Newspapers posted at any Post Office or Receiver in Sydney, for delivery within the boundaries of the City, and newspapers posted after seven days from the date of publication, which are subject to a charge of one penny each.

BRITISH AND FOREIGN BUSINESS.

CONDITIONS.

The following are the conditions under which messages will be transmitted :—

1. The length of a word is limited to a maximum of ten letters.
2. Only ordinary dictionary words should be used. Artificially-constructed words are subject to the cipher rate.
3. Groups of figures may be transmitted, and will be charged at the rate of five to the word, if expressing ordinary commercial quotations; but if used for code purposes they will be subject to the cipher rate.
4. Groups of letters or artificially-constructed words will be treated in the same manner as figures.
5. Cipher telegrams must be collated—*i.e.*, repeated back in their entirety from station to station. Half rate extra is charged for collating.
6. Any combination of code employing in the same message groups of figures and letters is strictly prohibited, and telegrams composed in this manner cannot be accepted.

Digitized by Google

7. Addresses may be written in code, at the sender's risk, under arrangement with the administrations concerned. The signature may also be a code word, or the last word of the message may replace it.

8. The following abbreviated forms for expressing "Reply paid," "Acknowledgement of Receipt," "Collating," and "Telegram to follow" have been agreed to, so that only one word need be paid for to convey these instructions:—

Reply paid	RP.	Collating	T.C.

PART II.

Statistics of New South Wales for 1876.

PART I.—POPULATION, IMMIGRATION, VITAL STATISTICS, &c.

POPULATION.—The estimated population of the Colony on the 31st December, 1875, was 606,652 persons; that for the same time at the end of the year 1876 was 629,776 persons, showing an increase of 23,124 souls, or 3·81 per cent. The increase for the first six months of the year amounted to 10,514 persons, and for the remaining period of the year to 12,610 persons. Of the total population the number of males was 65,962 in excess of females; the percentage for the former being 55·24, and for the latter 44·76, a difference of 10·48 in favour of males. To every 1,000 persons then there were 552 males and 448 females, which shows an increase of 2 males in the 1,000 on the previous year. For the first six months of the year there were 11,335 births, and 17,588 persons who arrived in the Colony by sea, a gross total of 28,923, from which must be deducted 6,170 deaths for the same period, and the departures by sea 12,239, in all 18,409, which leaves a net increase of 10,514 persons. During the last six months of the year the births numbered 11,963, and arrivals by sea 15,354, being a total of 27,317 persons. The deaths for this period were 5,023, and departures by sea 9,684, both together amounting to 14,707 persons. The net increase then will be 12,610 persons. The total addition to our population during the last ten years amounts to 182,156 persons, of which number only 13,490, or about 7½ per cent., are shown to have been immigrants who arrived in the Colony from the United Kingdom.

MARRIAGES.—Of the total number (4,630) of marriages celebrated during the year, there were 1,264 or 27·30 per cent. in Sydney, 463 or 10 per cent. in the Suburbs, and 2,903 or 62·70 per cent. in the Country Districts. In comparison with the previous year, there were more marriages in the City and Suburbs, and fewer in the Country Districts. The ratio of marriages for every 1,000 persons of estimated population in the middle of the year is, for the City, 13·55; Suburbs, 6·26; and Country, 6·45. For the whole Colony the ratio per 1,000 is 7·51, the average of the previous nine years being 7·81. With reference to the number of marriages celebrated by the various denominations and by the Registrars, we find that the Church of England heads the list with 1,759; Roman Catholic, 921; Presbyterian, 761; Wesleyan, 487; Congregationalist. 232; Primitive Methodist, 101; Registrars, 275; the remaining denominations being under treble figures. Those denominations which show an increase on the previous year are as follows:—Church of England, 141; and Congregationalist, 46; Registrars' Offices also show an increase of 25. The following denominations show a decrease, viz.:—Roman Catholic, 32; Presbyterian, 145; Wesleyan, 15;

Primitive Methodist, 8. Of the total number of marriages then, the Church of England celebrated 37·97 per cent.; Roman Catholic, 19·89; Presbyterian, 16·44; Wesleyan, 10·52; Congregationalist, 5·01; Primitive Methodist, 2·18; and Registrars, 5·95.

BIRTHS.—The total number of births registered during the year 1876 was 23,298, consisting of 11,791 males and 11,507 females, the former being 284 in excess of the latter. The percentage of males is 50·61, and of females 49·39. The increase in the number of births on the previous year is as follows:—Males, 411; females, 359; in all, 770. The birth rate of the colony per 1,000 of estimated population at the middle of the year was 37·75, being a slight decline on the previous year. The average for the previous nine years was 39·58, so that the birth rate of 1876 was nearly 2 per 1,000 lower than this average. Of the number of births registered in the City, the percentage of males was 51·18, and of females 48 82. In the Suburbs female births were in excess of male, the percentage being 50·36 for the former, and 49·64 for the latter. The figures for the Country Districts are, for males, 50.67; for females, 49·32. The City birth rate was 35·48, being 1·44 lower than the figures for the previous nine years' average. In the Suburbs the average for the previous nine years was 44·52, and the rate of the year, 41·39, showing a decline of 3·13. The rate for the Country Districts was 37·62, which is lower by 1·78 than the average of the nine previous years. Comparing the birth rate per 1,000 of population, of the three divisions with the rate of the previous year, we find the City and Country were nearly stationary, while the Suburbs show an increase of 0·50.

DEATHS.—The total number of deaths recorded in the year 1876 was 11,193. In each of the quarters of the year the numbers were as follows:—March, 3,012; June, 3,158; September, 2,636; December, 2,387. Male deaths numbered 6,508, or 58·14 per cent.; and females 4,685, or 41·86 per cent.—the former being 16·28 per cent. higher than the latter. Taking the total number of deaths in the City, we find that the percentage of males is 52·91, and of females 47·09; in the Suburbs, males, 50·50; females, 49·50; in the Country, males 61·84; females, 38·16. The excess of male over female deaths in the City is 5·82 per cent.; in the Suburbs, 1·00 per cent.; and in the Country, 23·68 per cent. The death rate per 1,000 of estimated population of the Colony was 18·13, the previous year being 18·12. The average rate for previous nine years was 15·18, so that the rate of the year under report is 2·95 higher than that average. The City death rate for the year was 26·70, which is lower than the figures of the previous year by 3·06, but higher by 3·19 than the previous nine years' average. The Suburbs show a rate of 22·81, which is only 0·34 lower than the previous year, and 4·13 in excess of the average for the previous nine years. In the Country districts the rate was 15·59, which is 0·70 over the year preceding, and 2·67 higher than the average of the previous nine years.

IMMIGRATION.—The number of Immigrants who arrived in the Colony from the United Kingdom during the year 1876 was 2,113. Of this number, 1,463 were introduced at the public expense, and 650 arrived by their own means. These arrivals consisted of 1,597 adults and 516

children; the former class comprising 988 males and 609 females, and the latter 280 males and 236 females. About 75 per cent. of the immigrants at the public expense were Protestants, and the remainder Roman Catholics. With regard to their nationality, we find that 57·48 per cent. were from England and Wales, 12·85 per cent. from Scotland, 27·83 per cent. from Ireland, and 1·84 per cent. from other countries.

LUNATIC AND INVALID ESTABLISHMENTS.—The total number of patients admitted into the Hospital for the Insane at Gladesville during the year 1876 was 340, of which number there were 279 new admissions, and 61 are shown to be re-admissions. There were 982 patients under treatment during the year, consisting of 566 males and 416 females The average number of residents was 610, made up of 342 males and 268 females. The percentage of recoveries on admissions was 44·11, that for males being 39·90, and for females 50·36. The figures for those relieved during the year are 9·41 per cent.; males 6·89, and females 13·13. The deaths were 7·05 per cent. on the average number of residents. The Asylum for Free Lunatics at Parramatta admitted 88 patients, all males, and fresh cases. The number of cases under care consisted of 582 males, and 206 females, in all 788. The average number of residents during the year was 733, males 532, and females 201. There were 3·40 per cent. of patients admitted during the year who recovered, and 2·27 were relieved. The deaths in this establishment were 6 per cent. on the average number of residents. In the Criminal Lunatic Asylum at Parramatta we find that the total number of patients under care was 82, viz :—70 males and 12 females, and the average number of residents was 69. The recoveries on the admissions of the year were 44·44 per cent., and the death rate was 5·79. The number of patients under care in the Asylum for Imbeciles at Newcastle was 203, and the average number of residents 175 Bay View House Asylum had a total of 147 patients under treatment, and an average of 119 were residents. The total number of patients under treatment in lunatic and invalid establishments during the year 1876 was 2,202, showing an increase of 168 on the returns for the previous year. The ratio per 1,000 of estimated population was 3 56, as against 3·42 in the previous year. The cost to the Government of maintaining these establishments was £49,610, less the sum of £1,863 received from friends and relations of patients for their maintenance and paid into the Treasury.

HOSPITALS.—The Returns for the Hospitals of the Colony show a total of 5,833 admissions for the year 1876, being an increase of 267 on the year preceding. This increase arises chiefly from country hospitals, as the figures for the Sydney Infirmary are 150 below those for the year 1875. There were 730 deaths in hospitals during the year, of which number 304 occurred in the Sydney Infirmary. The number of deaths in hospitals amount to about 12½ per cent. of admissions, and the rate for the Sydney Infirmary was 13·21. Those who received out-door relief numbered 9,407 persons, of whom 6,090 appear on the return from the Sydney Infirmary, and 2,600 from St. Vincent's Hospital. The total amount of receipts on behalf of hospitals was £43,885, of which sum £22,238 was supplied by the Government and the balance from voluntary contributions. More than one-half of the total sum expended by the Government was assigned to the

Sydney Infirmary. St. Vincent's Hospital appears as the only one that receives no aid from the public purse; the total receipts for the year being £2,268.

BENEVOLENT ASYLUMS AND SOCIETIES.—During the year there were 1,875 adults and 364 children admitted into Benevolent Asylums, being an increase of 155 and 141 respectively. Those discharged were 1,436 adults and 330 children; and the number of deaths was 369 and 22 respectively. There were also 60 persons who received out-door relief, and 2,654 cases were dealt with in like manner. The total receipts of these establishments amounted to £26,121, of which sum the Treasury provided £23,698, and voluntary contributions £2,423. The receipts for the year for two Benevolent Societies* amounted to £511, of which £208 was obtained from the Government.

ORPHAN AND INDUSTRIAL SCHOOLS.—We find that the total number of inmates in these establishments at the end of the year was 1,817, comprising 1,017 males and 800 females. The receipts were as follows,—from the Government £22,411, and from private sources £7,647, in all £30,058.

MISCELLANEOUS CHARITABLE INSTITUTIONS.—In addition to the foregoing Institutions there were six others, whose united receipts for the year amounted to £4,621. One of these, the Sydney Sailors' Home, gives no return of receipts. The general total amount received during the year 1876 by the Charitable Institutions of the Colony was £154,807†, which is a sum less by £5,554 than the figures for the previous year.

WAGES, &c.—The following table shows the average rate of wages obtained in the Colony during the year 1876.

PART II.—RELIGION, EDUCATION, CRIME.

ECCLESIASTICAL.—The Return of Churches and Chapels shows that there were 611 Ministers registered under Acts 30 and 34 of 19 Vic. The Church of England appears first on the list, with 196 Ministers; Roman Catholic, 163; Presbyterian, 83; Wesleyan Methodist, 82; Congregational, 33; Baptist, 12; Primitive Methodist, 17; and every other denomination under the double figures The total number of Churches and Chapels belonging to the various denominations was 1,150, which provided 188,548 individual sittings. The average attendance in Churches and Chapels was 155,762 persons, and in other places for public worship 35,258 persons, making a total of 191,020 persons. The sum of £22,681 was received from the Government and Church and School Estates This amount was divided between the Church of England, Roman Catholic, Presbyterian, and Wesleyan Methodist Churches.

SUNDAY SCHOOLS.—The number of Sunday Schools in the Colony during the year 1876 was 1 058, in which there were 3,141 male and 3,958 female teachers employed, in all 7,099. The children on the Registers numbered 77,462, of whom 36 379 were males and 41,083 females. The average attendance of children is given as 58,837

EDUCATION—PRIVATE SCHOOLS.—During the year 1876 there were 543 Private Schools in operation; and the number of scholars was 18.430, consisting of 7.699 males and 10,731 females. The number of teachers was 278 males and 738 females, in all 1,016. The figures relating to these schools are very close to those for the previous year.

ORPHAN AND INDUSTRIAL SCHOOLS.—The number of children under instruction in these schools was 1,343, comprising 801 males and 542 females.

COUNCIL OF EDUCATION—PUBLIC SCHOOLS.—At the close of the year 1876 there were 503 Public Schools in existence, in which there were 881 teachers (males 560, females 321), and 64,494 children (males 34,429, females 30,065). As compared with the previous year we find an increase of 42 in the number of schools, of 85 in the number of teachers, and of 5,683 in the number of scholars. The amount received from fees and other sources was £39,973.

PROVISIONAL SCHOOLS.—These schools had increased from 262 in 1875 to 279 in 1876. The number of teachers shows a decrease from 264 to 254. The number of scholars was 9,196, which is an addition of 410 to the figures of the previous year. Fees and other contributions amounted to £4,396

HALF-TIME SCHOOLS.—Half-time schools show their number to have been 110, teachers 55. and scholars 2,265. Fees, &c., realised £730.

DENOMINATIONAL SCHOOLS.—The number of these schools for the year 1876 was 181, which is a decrease of 10 on the previous year. The teachers had increased from 385 to 393, and the children from 34,509 to 35,314. The sum received as fees, contributions, &c., amounted to £18 467. The total sum expended on all schools under the Council of Education amounted to £335,305, of which £271,739 was paid out of the Treasury, and £63,566 was received as fees, voluntary contributions, and other sources. As compared with the previous year we find an increase of £112,823 on the total

Digitized by Google

sum expended, the Government making good £109,553 of this amount, and fees, &c., £3,270. The total number of those receiving instruction in all schools under the Council of Education was 111,269, showing an increase on the year 1875 of 6,813 scholars.

UNIVERSITY, COLLEGES, AND GRAMMAR SCHOOL.—In these seats of learning we find there were 494 students, the greater portion of whom (401) were of the Grammar School. The sum paid from the Treasury towards maintenance was *£11,298, of which sum £5,000 was absorbed by the University. Amounts received as fees and from other sources came to £12,487, making a total of £23,785. The general total number of all who were receiving instruction in the Colony during the year 1876 was 131,620, showing an increase of 6,864 on the previous year.

CRIME.—The total number of committals in the Supreme and Circuit Courts of the colony, for the year 1876, was 338, of which 297 cases went to trial, the result being 221, or 74·41 per cent. convictions, and 76 or 25·59 per cent. acquittals The Quarter Sessions cases for the year were as follows :—Committals 1,058, trials 870, convictions 589, or 67·70 per cent., acquittals 281, or 32·30 per cent. The total number of convictions for the year in Supreme and Circuit Courts. and Courts of Quarter Sessions, amounted to 810, showing an increase of 103 on the previous year. The number of apprehensions made by the Police during the year was 26,993, of which drunkenness forms 16,171 cases, or nearly 60 per cent.

PART III.—TRADE AND COMMERCE.

IMPORTS AND EXPORTS—The general total value of Imports for the year 1876 amounted to £13,672,776, and of Exports to £13,003.941, the excess of the former over the latter being £668,835. Comparing these figures with those for the previous year, we find an increase of £182,576 in Imports, and a decrease of £667,639 in Exports. The rate per head of Imports on estimated mean population was £22 2s. 4d , and of Exports £21 0s 8d.

IMPORTS.—Imports for the year from the *United Kingdom* are valued at £5,763,533, being a decrease of £298,693 on the previous year. The value of Imports from *British Colonies* amounted to £6,957,463, which is an addition of £456,393 to the figures of the previous year. Imports from *Australian Colonies* were as follows :—Victoria—seaward, £1,139,897 ; overland, £1,246,880,—making a total of £2,386,777. *South Australia*—seaward, £748,285 ; overland, £417,421,—in all £1,165,706. *Queensland*—seaward, £1,981,996 ; overland, £7,593 ; total, £1,989,589. *Western Australia*—£64. Total Imports from all Australian Colonies, £5,542,136. Imports from other British Colonies amounted in value to £1,415,327. From *Foreign States* the Imports were of the value of £951,780.

EXPORTS.—The value of Exports to the *United Kingdom* was £5,918,187, being £456,316 lower than the figures of the previous year, and £154,654 in excess of the Imports of the year 1876. Exports to *British Colonies* are valued at £6,637,018, showing a decrease of £201,737 on the year preceding, and there is a decrease of £320,445 when compared with Imports. The

value of Exports to *Australian Colonies* was as follows :—Victoria—seaward, £748,871 ; overland, £3,294,795,—making a total of £4,043,666, which is less by £226,104 than the figures for the previous year. The large amount in the value of our Export trade to Victoria is chiefly due to the quantity of Wool forwarded by our flock-masters through that Colony to Hobson's Bay for shipment to foreign markets. The value of this particular article of trade, so exported for the year 1876, amounted to £2,259,337. The value of our Exports to Victoria exceeded the Imports from that Colony by £1,656,889. *South Australia*—seaward, £92,171 ; overland, £577,967,—in all £670,138. Imports from this Colony exceeded our Exports there by £495,568. *Queensland*—seaward, £1,036,602 ; overland, £85,218.—making a total of £1,121,820. Here also we find Imports from this Colony in excess of Exports thither to the amount of £867,769. Total Exports to all Australian Colonies were of the value of £5,835,928, which sum is £293,792 in excess of Imports from those Colonies. Exports to other British Colonies were valued at £801,090, and to Foreign States £448,736. The value of articles exported during the year 1876, being the produce or manufacture of the Colony, amounted to £10,691,953.

SHIPPING.—The number of Vessels which entered the various ports of the Colony during the year 1876 was 2,313. They were of an aggregate of 1,074,425 tons, and the number of their crews was 46,047. The number to each port was as follows :—Sydney, 1,246, with 635,269 tons ; Newcastle, 1,023, with 433,423 tons ; Grafton, 4, with 703 tons ; Richmond River, 14, with 2,138 tons ; Tweed River, 24, with 1,448 tons ; Eden, 2, with 1,444 tons. The number of Vessels cleared at the various ports of the Colony during the year 1876 was 2,265, of a capacity of 1,053,300 tons, and carrying crews to the number of 43,751. The numbers and tonnage respectively from each were as follows :—Sydney, 888 and 502,866 ; Newcastle, 1,309 and 535,738 ; Grafton, 19 and 3,451 ; Richmond River, 13 and 2,142 ; Tweed River, 23 and 1,363 ; Eden, 13 and 7,740.

SHIPBUILDING, &c.—There were 60 vessels built in the colony during the year 1876, of an aggregate of 3,465 tons, and 95 vessels were registered. The Returns for the last ten years show that for the first half of that period there were 134 vessels built, of an aggregate of 8,410 tons, and for the second half there were 271 vessels built, of an aggregate of 17,498 tons.

PART IV.—MILLS AND MANUFACTURES.

FROM the returns of Mills for grinding and dressing grain during the year 1876 we find that there were 164 in operation. Of this number, 150 were worked by means of steam, of an aggregate of 2,481 horse power. There were 8 mills in which water was used as a motive power. Wind was used in 2 mills, and there were 4 in which horse power was employed. The number of pairs of stones in operation was 355. These figures are nearly the same as those for the previous year. The return for Manufactories and Works, &c., shows that there were 986 manufactories in operation during the year 1876. They are distinguished as follows :—Connected with or dependent on agriculture, 137 ; working on raw materials the

Digitized by Google

production of the pastoral interest, 43; food, of which the raw material is not the produce of agriculture, and of articles of drink, 186; building materials and plastic manufactories, 23; machine manufactories, brass, lead, and iron works, 55; and other manufactories, under the head of miscellaneous, 542.

WOOLLENS.—The quantity of Cloth and Tweed turned out from the Woollen Manufactories of the Colony during the year 1876 was 395,704 yards, the produce of 8 mills. The following is a comparison of the progress of this industry for the decade. For the first half of the period the quantity of material manufactured was 1,091,382 yards, and for the second half, 1,731,614 yards.

SOAP AND CANDLES.—There were 30* Soap and Candle Manufactories employed during the year, which produced 80,895 cwt. of Soap and 13,811 cwt. of Candles. As compared with the first half of the decade, there is an increase in the last half of 43,611 cwt. of soap and a decrease of 12,067 cwt. of candles.

TOBACCO.—The manufacture of Tobacco was carried on in 20† establishments, which produced 13,740 cwt. The decennial return shows an increase in the quantity produced in the last five years over the first five years of 24,643 cwt.

SUGAR.—There were 70 mills for the manufacture of Sugar. Of this number, 26‡ are worked by steam, representing an aggregate of 302 horse power, and 44§ used horse power. The quantity of Sugar produced was 93,960 cwt. This is exclusive of one mill of 20 horse power, from which no return could be obtained. The quantity of Molasses produced was 55,560 gallons and 1,362 tons. The weight of cane crushed is not obtainable; mill owners, and especially the Colonial Sugar Company, which is the largest proprietary of sugar mills in the Colony, refusing to divulge this information.

SUGAR REFINERIES.—There were only 2 establishments in the Colony for the refining of Sugar. The quantity dealt with amounted to 284,544 cwt.

BOILING-DOWN ESTABLISHMENTS.—These had decreased in number from 35 in the year 1875 to 29 in the year under review. The number of animals slaughtered was as follows:—Sheep 25,876, Cattle 4,611, Pigs 175. The quantity of tallow produced was 43,810 cwt. (chiefly in the Metropolitan District from the refuse of butchers' shops).

DISTILLERIES.—From the decennial return of Colonial Distilled Spirits, it will be seen that there were 218,308 gallons of proof spirit produced, from 43,082 cwt. of molasses. In the year 1867, which was the first year of the decade, the production amounted to 20,903 gallons, so that the increase on this quantity in the last year was 197,405 gallons.

* There were also 2 not at work.
† There was also one not at work in Port Stephens District.

PART V.—PRODUCTION.

GOLD.—The general total value of Gold received into the Mint by escort, from the several gold fields of the Colony, during the year 1876, amounted in value to £479,133. As compared with the previous year, we find a falling away to the amount of £288,696. The Western District shows the largest production, which was valued at £357,496, which amount is below the figures of the previous year by £226,396. From the Southern Gold Field the produce was valued at £104,743. Here again we notice a decrease of £56,033. The Northern Gold Field supplied gold to the value of £16,894, which is less in amount by £6,267 than the figures of the previous year. The greatest quantity of Gold received by escort into the Mint in any one year during the decade was in the year 1872, when the value amounted to £1,513,186, since which there has been a large yearly decrease.

COAL.—The number of Coal Mines in work during the year was 25,* from which 1,319,918 tons were raised, of the value of £803,300. These figures show a decrease on the previous year in quantity of 9,811 tons, and in value of £16,129. The value of Coal produced in the district of Newcastle for the year was £626,260, or nearly 78 per cent. of the whole. The total value of Coal raised during the first five years of the decade was £1,739,786, and for the second five years, £3,474,900.

SHALE.—The quantity of Shale raised during the year amounted to 15,998 tons, valued at £47,994, against 6,197 tons, of £15,500 value, in 1875—being an increase of 9,801 tons in quantity, and £32,494 in value.

COPPER ORE AND COPPER.—There were 5,225 tons of Copper Ore and Copper raised and produced during the year, of the value of £58,271. Here again we find an increase on the figures of the previous year of 3,741 tons and £25,874.

TIN ORE AND TIN.—The weight of Tin Ore and Tin raised and produced during the year was 7,706 tons, valued at £252,713, showing an increase of 1,298 tons and £30,791.

IRON.—Of this metal there were 2,680 tons produced, of the value of £13,399.

ANTIMONY ORE.—The weight of Antimony Ore produced was 40 tons, valued at £140.

LIVE STOCK.—The returns of Live Stock for the year ended 31st March, 1877, show that the general total of all kinds amounted to 28,174,708, owned by 33,680 persons. The number of *Horses* was 366,703, showing an increase on the previous year of 9,007. *Horned Cattle* numbered 3,131,013, which figures are less by 3,073 than those of the previous year. The number of *Sheep* had increased from 24,382,536 to 24,503,388, being an addition of 120,852 to our flocks. From the decennial return of Live Stock it will be seen that during the last five years of the decade the number of Horses has been yearly increasing. Horned Cattle also show an increase each year, with the exception of the year under consideration. Comparing the number of Sheep in the year 1873 with the number in the year 1876, we find an increase of 6,943,340.

* There were also 11 not at work.

AGRICULTURE.—The Agricultural Returns for the year ended 31st March, 1877, show that the number of occupiers of land, exclusive of those for pastoral purposes, was 39,639, being an increase of 2,655 on the previous year. The extent of holdings comprised an area of 18,210,796 acres, as against 13,525,497 acres in the previous year. The area of land in cultivation was 513,840 acres, making an addition of 62,702 acres to the area of the previous year. A large addition is to be noticed in the extent of land enclosed but not in cultivation. The area had increased from 7,771,068 acres to 11,020,968 acres. Unenclosed land occupied an area of 6,675,987 acres, being an advance on the previous year of 1,372,698 acres.

GRAIN CROPS.—The extent of land under *Wheat* for the year was 145,608 acres, which is in excess of the previous year's area by 11,999 acres. The quantity of wheat grown was 2,391,979 bushels, which gives an average of 16½ bushels to the acre. *Maize* occupied an area of 116,364 acres, which produced 3,879,537 bushels, the average per acre being over 33 bushels. There appears a small decrease in the number of acres used for the growth of maize, but an increase in the yield. The area of land used for *Barley* was 5,662 acres, and the produce amounted to 134,158 bushels, which gives an average of about 23½ bushels per acre. The increase in area used for the growth of this cereal was 845 acres, and there is an addition of 35,582 bushels in production. *Oats* show an area of 21,828 acres, and a yield of 461,916 bushels, which is an average of a little over 21 bushels to the acre. Here also there is a small increase in both area and production.

POTATOES.—This crop covered an area of 14,171 acres, which produced 42,938 tons. The average per acre was a little over 3 tons. Here we find an excess in area of 366 acres, and of 1,735 tons.

SUGAR-CANE.—The number of acres used for the growth of sugar-cane was 6,755, of which 3,524 were productive.

HAY.—The area laid down for hay in sown grasses, oats, wheat, and barley, was 111,946 acres, which gave a yield of 159,660 tons. As compared with the previous year there was an increase of 34,821 acres in extent of area, and of 70,693 tons in the weight of the crop.

VINES.—The quantity of land under the cultivation of the vine was 4,457 acres, which is within an acre the same as the area of the previous year. The vintage gave 799,709 gallons of wine, and 2,968 gallons of brandy. Here we find a decrease in the quantity of wine produced of 32,040 gallons, and a small increase in brandy. There were also 917 acres set apart for fruit for the use of the table.

GREEN FOOD FOR CATTLE.—The number of acres appropriated for green food for cattle amounted to 61,516, which shows the very large increase of 10,882 acres.

GARDENS AND ORCHARDS.—Gardens and orchards occupied a space of 20,453 acres, as against 19,407 acres in the previous year. Taking these statistics on the productions of the Colony, as a whole, in comparison with the previous year, they must be considered as most satisfactory.

PART VI.—MONETARY AND FINANCIAL.

INTEREST.—The rates of interest allowed to depositors by the Banks during the year 1876 were as follows :—For 3 months, 3 per cent. ; for 6 months, 4 per cent. ; for 12 months, 5 per cent.

COIN AND BULLION.—The general total value of coin and bullion in the Mint, Treasury, and various Banks of the Colony on 31st December, 1876, amounted to £2,879,417. Of this sum, British coin and Australian sovereigns represent £2,732,204 and the balance forms the value of bullion gold.

NOTES.—The amount of notes in circulation on 31st December, 1876, belonging to the several Banks of the Colony was £1,220,556.

NEW SOUTH WALES SAVINGS' BANK.—The return of the New South Wales Savings' Bank shows that on the 31st December, 1876, there were 31,003 depositors, to whose credit there stood the sum of £1,303,813. Of the number of depositors 24,120 are stated to be in the Sydney books with a credit of £1,013,073, and 6,883 were country depositors, with a credit of £290,740. The amount at credit of Reserve Fund was £136,000. The rate of interest paid to depositors on amounts not exceeding £100 was 5 per cent. per annum, and the interest charged to borrowers was at the rate of 6 per cent. per annum for the first half of the year, but afterwards reduced to 5 per cent. Out of the total number of depositors we find that 47·40 per cent. had £20 and under to their credit, 19·17 per cent. between £20 and £50 ; 15·95 per cent between £50 and £100 ; 16·68 per cent. between £100 and £200 ; 0·48 per cent. between £200 and £300 ; and 0·32 per cent. £300 and upwards. There was an increase of £8,015 on the previous year in the amount of deposits.

GOVERNMENT SAVINGS BANKS.—There were 149 Government Savings Banks in operation during the year 1876. The number of accounts remaining open at the close of the year was 13,270, with a credit of £400,120. As compared with the previous year, we find an increase of 2,471 in the number of accounts, and of £46,046 in the amount to credit of depositors.

GOLD RECEIVED AND ISSUED AT THE MINT.—The weight of Gold-dust or Bullion received at the Branch Royal Mint during the year 1876 was 431,905 ounces, valued at £1,605,558. The revenue for the year amounted to £10,496, of which sum £3,941 was received from Gold the produce of the Colony, and £6,555 from other sources. The value of the gold received into the Mint from New South Wales was £575,565 ; from New Zealand, £54 783 ; from Queensland, £967,967. The following table shows the quantity and value of gold received at the Mint from its opening on the 14th May, 1855, to 31st December, 1876, and the places which produced such gold :—

	ozs.	£

RAILWAYS.—The total number of miles of Railway open for traffic at the end of the year 1876 was 509 miles, which is an addition of 72 miles on the figures of the previous year. The return shows that during the year there were 2,478,946 passengers carried. These figures include season-ticket holders. An increase appears in the number of passengers of 570,541. The total amount of earnings for the year was £693,225, as against £614,647 in the previous year, being an increase of £78,578. The sum of £339,406 was expended in working, which amount is £43,232 in excess of the previous year. Earnings exceeded working expenses by £353,819.

ELECTRIC TELEGRAPHS.—There were 171 Telegraph Stations in operation at the close of the year, which yielded a revenue of £59,348. The number of Telegrams transmitted from the Colony to all parts was 858,301, from which £78,298 was obtained. This amount is exclusive of £2 031, balance on intercolonial business. The number issued in the Colony from all parts was 136,144. The number of stations had increased from 137 in the year 1875, to 171 in the year under review, and the number of miles of line from 8,012 to 8,472 From the decennial table we find that the total cost of construction of the Telegraph lines of the Colony amounted to £271,890.

POST OFFICES.—At the close of the year 1876 we find there were 782 Post Offices, with 1,090 persons employed. The business of the year was as follows:—Number of letters transmitted, 14,466,900; newspapers, 6,917,200; packets, 413,900. the following sources :—Rates, &c., £67,043; Loans, &c., £20,997; Government aid, £23,609. The total Expenditure is shown to amount to £106,924, which was distributed as follows :—Office expenses and salaries, £16,342; Public Works, £80,134; Repayment of Loans, &c., and interest, £10,448. The total extent of roads and streets under charge was 2,519 miles.

PART VII.—MISCELLANEOUS.

PUBLIC WORKS.—RAILWAYS.—From the general Return of Public Works it will be seen that the total amount expended on the Railways of the Colony during the year 1876 was £738,272. Of this sum £484,177 was expended on extensions not yet open for traffic, and £254,095 in repairs, rolling stock, &c. The general total amount which the Colony has invested in Railways up to the end of last year was £8,570,059.

ELECTRIC TELEGRAPHS. — The various extensions of Telegraph Lines during the year absorbed the sum of £26,172. The total sum expended in the construction of Telegraphs to the end of the year 1876 was £271,890.

ROADS AND BRIDGES.—The cost incurred in the construction and maintenance of Roads and Bridges of the colony during the year 1876 was £342,997, to which should be added the expenditure on Minor Roads and Subordinate Roads under Trustees, which amounted to £39,260, making a general total of £382,257.

HARBOURS AND RIVERS.—The Harbours and Rivers Branch of the Public Works Department shows a total expenditure for the year of £175,189.

PUBLIC BUILDINGS.—The sum of £155,685 was expended during the year on the erection, additions, and repairs of Public Buildings. The total amount on all Public Works for the year was as follows :—Railways, £738,272; Electric Telegraphs, £26,172; Roads and Bridges, £382,257; Harbours and Rivers, £175,189; Public Buildings, £155,685; total, £1,477,575.

METEOROLOGY.—From the Abstract of Observations taken at the Sydney Observatory in the year 1876, we find that the highest temperature in the shade was on the 25th February, when it reached 96·9. The records further show the following high temperature :—12th November, 92·8; 19th January, 90·8; 26th March, 89·6. The mean shade temperature for the year was 82·4. The lowest temperature recorded was on the 31st July, when it was 39·1. The mean of the year was 49·1. The total quantity of rain which fell during the year was 45·647 inches, which is less by 6·328 than the average of the figures for the last seventeen years.

REAL AND LEASEHOLD ESTATES.—The number of all kinds of deeds registered during the year 1876 was 9,503. The Decennial Table shows that in the year 1867 the number was 4,959, and in the first year of the second half of the decade (1872) they had increased to 5,428. From this period they have rapidly increased year by year till they reached 9,503 in number as before stated. The total aggregate amount of money consideration expressed in all deeds registered amounted to £3,886,270, and a further yearly sum of £20,933 included in leases registered for a period exceeding three years. Mortgages on land registered during the year numbered 2,126,

representing a sum of £1,042 848. These securities had increased in number since the year 1873, from 1,241 to 2,126, in the year under review, and the sum advanced from £711,315 to £1,402,848. There were 1,101 discharges of mortgage registered during the year, of an aggregate value of £600,835, and also 110 conveyances under mortgage, of £63,394 in value.

LIENS ON WOOL.—There were 920 liens on wool registered during the year, representing an aggregate sum of £752,819, the security consisting of 4,828,951 sheep. From the Decennial Table it may be seen that there has been a very large increase in this description of security since the first year of the decade, when the number of these instruments registered was 268, and the amount secured rose from £521,384 to £752,819.

MORTGAGES ON LIVE STOCK.—Live Stock mortgages for the year numbered 758, securing an aggregate sum of £2,157,835; the security consisting of 2,480,004 sheep, 258,447 horned cattle, and 5,847 horses. Here also a large increase is to be observed, the difference between the amount secured in the first and last years of the decade being £952,824. The discharges of mortgages on live stock amounted in value to £1,028,079.

LIENS ON GROWING CROPS.—There were 319 liens on growing crops registered during the year, securing in the aggregate the sum of £16,419.

REAL PROPERTY ACT.—Applications to bring property under the operation of the Real Property Act again show a decrease of 15 on the number received in the previous year, the numbers being 241 and 256. The declared value of the property included in these applications for the year 1876 amounted to £220,166, which is 8,992 under the figures of the previous year. The Decennial Table shows that in the first year of the decade (1867) there were 324 applications received, of a total value of £261,484. Comparing these figures with those for the year under review, we find a decrease of 83 in the number received, and of £41,318 in the value. The total number of transfers, mortgages, discharges, and incumbrances registered during the year was 4,551, representing a value of £2,272,170.

FEES, &C.—The total amount of fees received and paid into Consolidated Revenue Account during the year 1876 for the registration of the various transactions under the head of real and leasehold estate, liens on wool, mortgages of live stock, and Real Property Act was £8,862, a sum considerably in excess of the working expenses in connection with these services.

CROWN GRANTS.—The number of Crown Grants registered under the Real Property Act during the year was 5,275, comprising a total area of 660.011 acres, the purchase money of which amounted to £671,354 During the last ten years the business in Crown Grants has been as follows:—Number received, 44,077; area, 3,056,944 acres; purchase money, £3,277,906

The number of other works was as follows :—Puddling Machines, 225 ; Whims and Pulleys, 95 ; Whips, 265 ; Sluices and Toms, 452 ; Water-wheels, 126 ; Pumps, 293 ; Sluice-boxes, 1,368 ; Stamp-heads, 1,386.

PUBLICANS' LICENSES.—The total number of Publicans' Licenses issued during the year 1876 was 2,813, showing an increase of 183 on the figures for the previous year. In the City and Suburbs we find an increase of 81 new Licenses.

MILITARY FORCES.—The total number of all ranks of the New South Wales Artillery was 215, which makes an addition of 112 to the strength of this Force. The total number of Volunteers of all ranks was 2,721, and of Cadets, 1,520. The strength of the Naval Brigade consisted of 329 men, of whom 272 belonged to the Sydney Corps and 57 to the Newcastle Corps.

LAND SALES.—The area of land sold during the year 1876 was 4,046,350 acres, which realized the sum of £4,089,507. Of this amount the sum of £2,289,056 was paid, leaving a balance of £1,800,451. In addition to the sum of £2,289,056 received, we find a receipt of £68,834 as balance on conditional purchases, and another sum of £99,329 as interest, making a total of £2,457,219. Among the largest sums on account of land sales, we find that lands *sold at auction* realized £1,729,552, of which £1,417,260 was received, leaving a balance of £312,292 still owing. The receipts from Improved lots sold to owners of Improvements amounted to £87,619 Land *conditionally* sold realized the sum of £1,984,212 ; the actual receipts being £496,053, and the balance remaining unpaid amounting to £1,488,159. The amount received on behalf of Rent and Assessment of *Pastoral and Annual Leases* was £215,387. The following is a recapitulation of the receipts for the year 1876 :—

Under Lands Alienation Act..... ..	£2,457,219
,, Lands Occupation Act	215,387
,, Gold Fields Act	25,107
Miscellaneous	25,673
	£2,723,386

The balances on the business of the year remaining unpaid being £312,292 on Auction Sales, and £1,488,159 on Conditional Purchases,—in all, a sum of £1,800,451.

As compared with the previous year, we find the actual receipts on account of land sold were in excess by £875,120.

NOTE.—1*st*—The Population is given from the Census of 1871.
2*nd*—The number of registered voters stated is for the whole electorate, and not the portion of it in the Police District, where the two are not identical.

ALBURY—

This district lies on the right bank of the Murray River, in the pastoral district of Murrumbidgee, embracing the counties of Goulburn, Hume, and parts of Selwyn, Urana, and Denison. The scenery is beautiful, and the soil very fertile, being adapted for the culture of the vine as well as the growth of cereals. The district is also rich in gold, tin, and copper minerals. Four quartz crushing machines are at work within a radius of 80 miles from Albury. The climate is salubrious and pleasant This district is identical with the electorate of Hume. Population, 9190 Registered voters, 2685

Places of Petty Sessions—Albury, Meragle, Tumberumba, Howlong, Corowa, Mulwalla, and Ten-Mile Creek.

ALBURY.

This township is situated on the right bank of the Murray, where the river is crossed by the Great Southern Road; it is 351 miles from Sydney, and 200 from Melbourne. Other distances are 140 miles from Deniliquin, 109 from Gundagai, 77 from Wagga Wagga, and 28 from Beechworth. By the course of the Murray, it is about 300 miles from its source, and about 1,800 from its debouchure in Lake Alexandria, the respective travelling distances being 140 and 700. This district which lies on the right bank of the Wollondilly, embraces the south-western portion of the county of Camden A portion of this district is very rich in iron ore and other minerals. The Fitzroy Iron Smelting Co. are now at work, having about 50 men employed. About 150 tons pig iron are turned out per week: coal obtained from Wollongong but local deposits are found suitable, and will be shortly worked and used also on Southern Railway and towns, &c., on Southern line, and large quantities will, it is anticipated eventually find its way *per rail* into Victoria, &c., from this district. Mr. Mort has arranged to obtain a supply of milk here for Sydney, and looks upon this district as the most important in carrying out this contemplated enterprise. The country taken up at Wingecarribee is well adapted for agricultural pursuits, and near it is situate the Fitzroy Waterfall, one of, if not, the grandest in the colonies, the water having a clear fall of 600 feet into a valley of 2,000 feet deep. Since the Land Act of 1861 came into operation over 70,00 acres were selected by conditional purchasers. This district, with Camden and Picton, forms part of the Camden electorate. BOURKE—

This District embraces the eastern portion of the pastoral district of Albert, the western and southern portions of Warrego. and the northern portion of Wellington. Owing to the absence of mountains in these parts of the interior, the want of rain is frequently felt severely, which renders the district only fit for pastoral purposes; nevertheless, although it was long regarded as in the unknown interior, it is now becoming rapidly populated, and the resources developed to such an extent as to lead to the conclusion that a large and flourishing population will, ere long, find happy homes on the banks of the Darling. This is more likely to be the case now, as within the last few years the district has been discovered to be rich in metals. Copper has been found of a remarkably rich character, and in great abundance, and the quartz reefs, which are visible in many parts of the district, have been found to contain gold. Population—1,092 males, 416 females; total, 1,508. Public-houses, 43. This district is partly in the electoral district of the Bogan, and partly in Balranald.

Places of Petty Sessions—Bourke, Brewarrina, Eringunnia, and Gongolgon.

COWRA—

This district is situated on the Lachlan River, and formerly formed parts of the Carcoar, Forbes, and Young Districts. A portion of the Molong Police District was also added to Cowra District by notice in "Gazette" of 29th May, 1877, commencing at Canowindra Creek on the Belabula, and extending down the Lachlan River as far as Nanimi, Mr. John Campbell's Station. The soil and climate about Cowra is well adapted for fruit trees, and grape vines for wine making—a branch of industry which it is expected will be extensively followed in a very few years. There are a great many thousands of acres of rich land in the eastern portion of this district, towards Milburn Creek and Wangoola, well adapted for wheat-growing, and available for free selection. The rich flats on the bank of the Lachlan are inexhaustible, and grow abundant crops of maize, for which there is a constant demand at Parkes; several thousand acres have been taken up by auction and conditional purchase. Since last census the population has much increased. The present population is about 2,500.

Place of Petty Sessions—Cowra.

DUBBO—

This district lies on the Macquarie River, embracing parts of the pastoral districts of Bligh and Wellington. It has heretofore been regarded as a purely pastoral district, but the advance of population in the interior has demonstratively proved its adaptation for the growth of cereals and other agricultural products, such as extensive vineyards and orchards equal to any in the colony. The principal vineyards are J. E. Serisier's "Eumalga," F. Kurtz's "Mount Olivet," Duncan McKillop's "Terra Bella," and James Yeo's "Elong Elong." Considerable quantities of land have taken up by free selection. No less than 115,000 acres having been taken up within a radius of 20 miles from Dubbo. Population—2,688 males, 1,601 females; total, 4,289. The whole of this district is in the Bogan electorate, which also embraces parts of the police districts of Coonamble, Walgett, and Molong. Population—7,654 males, 4,461 females; total, 12,115, of whom 4,637 are males over 21 years of age Registered voters, 5,258.

Places of Petty Sessions—Dubbo, Canonba, Warren, Dondelloo, and Obley.

DUBBO.

This town is situated on the Macquarie River, distant 226 miles from Sydney. Gold has been found in payable quantities in the environs of the town; the immediate neighbourhood is all under cultivation. The stately bridge that spans the Macquarie, the mills and other substantial buildings of white cut stone in the Italian style, the new Catholic Church with its spire 70 feet high, the new English Church, new Presbyterian Church, Bank of New South Wales, all lately built of white chiselled stone, and the new Wesleyan Church of red brick, all giving an imposing appearance to the township; the Commercial Bank, the Mechanics' Institute, the Dubbo Hospital, the Public School, and Caro's new store, strikingly indicate the rapid progress of this town. The main Western line of railway now surveyed to Dubbo, is calculated to make it one of the most important inland towns in the colony as regards traffic and commerce. Population, 1000.

PARKES.

Parkes, the chief town on the Billabong gold-field, which is situated in the north-western portion of the county of Ashburnham, lies in the basin of the Lachlan River, and is built near the Goobang Creek. It is one of the most productive gold-fields in New South Wales, and is also a first-class agricultural district, producing fruits and cereals in the highest degree of perfection. Parkes is surrounded by thriving villages, of which the Tichborne Lead, McGuigan's, and the London are the most populous. The population of Parkes and within a circuit of 7 miles may be estimated at 5,000 souls. The country to the northward is being rapidly occupied by conditional purchasers. There are 40 public-houses on the gold field, and a large number of stores and wholesale establishments. The hospital, public school, and Masonic Hall, handsome brick buildings built on elevated and picturesque sites, overlooking the town, add considerably to its appearance. A commodious Court House and Warden's office has also been erected.

GRAFTON——

This district lies in the lower valley of the Clarence River, and extends inland from the coast about fifty miles, covering the 30 par. of S. lat., and between the point opposite the Solitary Islands and the range dividing the waters of the Clarence and Richmond Rivers. Besides being a fine pastoral country, it is admirably adapted for agricultural pursuits and the cultivation of some of the staple productions of tropical climates, and is also rich in minerals. Tin has recently been discovered about the southern heads of the Clarence waters. A coal-field has been opened near Maclean, and a payable gold-field discovered in the direction of Woombah. The yearly trade of the district requires over 100 voyages by steam vessels to Sydney, and 39 sailing vessels and steamers to and from Melbourne and neighbouring colonies, and nine steamers on the river used as passage boats. The Colonial Sugar Company has mills at Southgate, Chatsworth Island, and Harwood Island, and at the latter place there is an extensive distillery. The climate is perhaps the most humid in New South Wales. Population—4,986 males, 3,979 females; total, 8,965. Public-houses, 34. This district, with the Richmond River and Tweed River, forms the Clarence electorate. Population—7,811 males, 5,949 females; total, 13,760, of whom 3,747 are males over 21 Registered voters, 4,399.

Places of Petty Sessions—Grafton, Lawrence, and Maclean.

GRAFTON.

This city is situated on the Clarence River, 450 miles north of Sydney, 45 miles from the Heads; has steam communication with Sydney four times a week, and bids fair to rival the other ports on the eastern coast of Australia. It is the principal port north of the Hunter. Population, 3,350.

MANNING RIVER—

Situated on the coast between Camden Haven and Wallis' Lake, embracing the southern portion of the county of Macquarie, and the north-eastern portion of the county of Gloucester. The lowlands through which the Manning flows are exceedingly fertile, and particularly adapted for the growth of maize, sugar, and tobacco. Small mills for the manufacture of sugar are still in operation, but that industry has not progressed to the extent at first anticipated. A large quantity of timber of a superior description is exported to Sydney, for the supply of which five steam saw mills are working; an extensive trade has for some years been maintained in stone lime, which is considered the best in the colony. The export of oysters is now very considerable. This district forms part of the Hastings electorate.

MURRURUNDI ČUM HAYDONTON.

Number of inhabitants, 1,100. Distance from Maitland 95 miles. Time of journey from Sydney 12 hours. This township is situated on the River Page, in a valley at the foot of the Liverpool Range. No place can be more admirably suited for a change of air, scenery, and pleasure combined than this picturesque little village. The climate is most salubrious, and the scenery most enchanting. Lofty mountains, with beautifully wooded slopes adorned with numerous villas, tower on very side of the town, through the centre of which the placid but tortuous Page pursues the even tenor of its way. Amongst the most prominent buildings are the Church of England, only recently erected, Commercial Bank, School of Arts, which contains an excellent circulating library, Railway Station, and the Royal Hotel. Warrah, the celebrated station of the Australian Agricultural Co., is only 15 miles distant.

ORANGE—

Embraces the southern portion of the County of Wellington, and the north-western portion of the County of Bathurst. This district, at one time of little note, has risen to great importance by its inexhaustible mineral resources, both gold and copper. Its adaptation for agriculture has induced a great number of small tenant farmers to become conditional purchasers of its soil, which has now become celebrated for its wheat producing qualities. Population—4,208 males, 3,378 females; total, 7,586, of whom 2,066 are males over 21. Public-houses, 39. This district is identical with the electorate of Orange. Registered voters, 2,090.
Place of Petty Sessions—Orange.

ORANGE.

This town is likely to become one of the most important inland towns in New South Wales; it is on the road from Bathurst to Wellington, and also to Forbes, and has railway communication with Bathurst and Sydney. There are three steam mills for grain. It is distant by rail 47 miles from Bathurst and 192 from Sydney. Population—1,456.

TWEED RIVER—

Embraces the north-eastern portion of the pastoral district of the Clarence. It was, until recently, only known as a timber producing district, from which Sydney obtains large supplies of building materials. The district is admirably adapted for the cultivation of the sugar cane. Good judges say that its rich river flats and splendid climate place it amongst the most desirable spots on the eastern coast for the cultivation of the sugar cane. Messrs. Pringle and Shankey have erected a steam sugar mill which turns out 10 tons of sugar per week; they crush the cane for the farmers, and give the farmers half the sugar There is a small sugar mill, which does not crush for the public. This district forms part of the electorate of the Clarence.

YOUNG—

Embraces part of the pastoral and electoral district of the Lachlan. The country is of a granite formation, the soil being principally of a chocolate colour, very rich in quality, and admirably adapted for the growth of cereals of every description and the grape vine; agricultural and pastoral pursuits are carried on most successfully. No less than 474,752 sheep have been returned for 1876. Gold-mining is a thing of the past and the escort has been discontinued; but still, with scientific appliances, many places at present abandoned, might be made to yield a handsome return for capital invested.
